

Industrial Water Immersion Heaters

Made our of copper tube brazed to brass flange and duly nickel plated.

Caution: All industrial water Immersion Heaters are meant for heating water only and these must be fully immersed in water before putting them in operation.

Cat. No	Watts	Volts	Brass Flange BSPP	Dept. Of Immersion (mm)
IWI-20	2000	230	1 ½"	220
IWI-20+	2000	230	1 ½"	220
IWI-30	3000	230 / 415	1 ½"	280
IWI-30+	3000	230 / 415	1 ½"	220
IWI-30++	3000	230 / 415	2"	220
IWI-40	4000	230 / 415	2"	260
IWI-50	5000	230 / 415	2"	320
IWI-60	6000	230 / 415	2"	380
IWI-75	7500	230 / 415	2"	470
IWI-90	9000	230 / 415	2"	610
IWI-120	12000	230 / 415	2"	710

Industrial Water Immersion Heaters For Hot Water Generators

Elements are made from INC / Stainless Steel / Copper Sheathing. Brazed with M.S. Flanges suitable for mating Flange. Elements are designed for 70 watts / sq inch maximum. Available in different wattage from 5 kw to 300 Kw – 230/440V / AC / 50 Hz .
